How Is It Made Research Project

You are to choose an invention or a product that goes through a definite process of being made. Some examples of products that you could research are listed below:

1) How guitars are made
2) How Hershey Bars are made.
3) How crayons are made
4) How honey is produced
5) How Band-Aids are made

You must get your project topic approved by your ELA teacher. Complete the form and turn it in to obtain your teacher’s signature.

**Goal:** Students will produce one of the projects below after completing research.

1) Poster
   a. Each poster should have at least 2 graphics such as a timeline, diagram, or model.
   b. Information about the history of the inventor/product needs to be included.
   c. Information about how the invention or product is used and the importance of the invention/product.
   d. The information on the poster needs to be organized to explain the process.

2) Power Point/Google Slide
   a. Each PowerPoint or slide should have at least 2 graphics such as a timeline, diagram, or model.
   b. Information about the history of the inventor/product needs to be included.
   c. Information about how the invention or product is used and the importance of the invention/product.
d. The information on the poster needs to be organized to explain the process.

3) Video

a. Each video should include at least 2 graphics such as a time-line, diagram, or model.

b. Information about the history of the inventor/product needs to be included.

c. Information about how the invention or product is used and the importance of the invention/product.

d. You can also create a song to be used as part of the video.

e. The video needs to be 4 to 5 minutes in length.

f. You must submit your written script for the writing piece.

Even though, you are not writing a paper, you will need to include paragraphs and written information in your project. The written work must be grammatical correct.

Keep in mind, you will not present your research. Instead, your peers will have a chance to view your project through a gallery walk. Therefore, your project needs to fully explain your topic without needing added information from you.

Items to be turned in:

1) Project Approval Form
2) Research Notecards
3) End Product

The Project is due on _______________________________________________
Project Approval Form

I want to research how the following is made for my research project:

Name of item: ________________________________

Name of student: ______________________________

Parent’s Signature: ____________________________

Teacher’s Signature: ____________________________
